Chatot's PokéPark Introduction

You're pretty lucky to have found this book! I like lucky people, so I'll share a few special hints with you about your upcoming adventure.

1 The PokéPark Is a Wonderful Place for Pokémon to Play!

While fewer Pokémon than normal have visited the PokéPark recently, there are still many that come to play! Some like to play Chase, battle, or other Skill Games. Others like to enjoy Attractions such as Bulbasaur's Daring Dash and Venusaur's Vine Swing! There are lots of different games for you to play!

2 There Are Many Different Zones!

Take a look at the map at the beginning of this guide. You'll see that the PokéPark is divided into eight Zones. Remember this map, and you can play wherever you want, all day long!

Making New Friends Is a Wonderful Thing

When you play in the PokéPark, it's very important to make friends. Friends will help you in times of trouble, or when you just can't do something by yourself! Speaking to other Pokémon is one way to befriend them. There are other ways, too! Nobody has ever made friends with all the Pokémon in the PokéPark, so why not be the first?

Once you've become friends with a Pokémon, it's possible to become even closer with it!

1st

Filling up your PokéPark Pad is so much fun!

Sometimes you have to work hard to make friends!

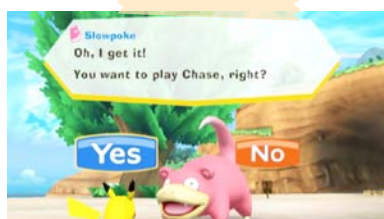

When you're playing with your friends, new Pokémon may appear!

5 Skill Games Are Particularly Popular in the PokéPark

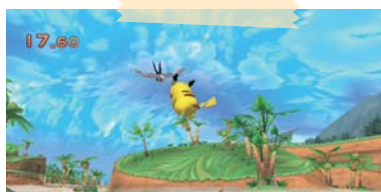

Competing in Skill Games with other Pokémon is popular, even if you're already friends with them! There are even Pokémon that will become friends with you when they see how good at Skill Games you are, so try your best every time!

Chase

Chase is the most popular Skill Game in the PokéPark. Wait until the start signal appears, then begin chasing!

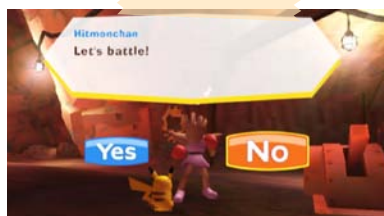

Try jumping at flying Pokémon, but remember that your best chance is waiting for them to land!

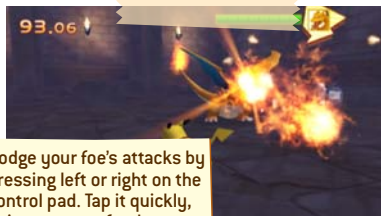

If you're just not quite fast enough, you need extra training! Visit Ponyta in the Meeting Place. He'll help you become quicker.

Battle

There are lots of Pokémon that are eager to show their strength in this Skill Game. Try and hit them with Thunderbolt!

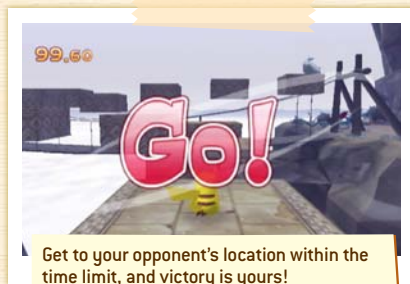

Dodge your foe's attacks by pressing left or right on the control pad. Tap it quickly, twice, to move fast!

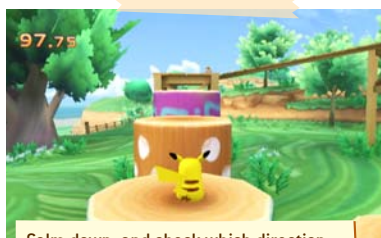

Sometimes Thunderbolt isn't very effective, so try using Tackle or Iron Tail instead.

Obstacle Hop

Get to your opponent's location within the time limit, and victory is yours!

Calm down, and check which direction you're facing by using the **[B]** button. Hold **[2]** to jump high.

Hide-and-Seek

Hide-and-Seek is another Skill Game Pokémon love to play. Find the hiding Pokémon, and you'll win!

The Pokémon you're trying to find could be hiding almost anywhere! Make sure to look around carefully.

Quiz

Some Pokémon like to find out how clever you are and will challenge you to a Quiz. You'll have plenty of time to answer. Think carefully!

If you fail, you'll be told the answer. You may want to note it down. You may be asked that question again!

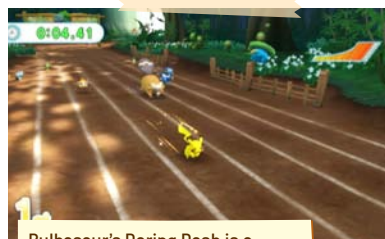

6 Enjoy the Fantastic PokéPark Attractions!

The PokéPark has a total of 14 Attractions. There are speed competitions, point-scoring games, and more. If you're finding an Attraction difficult, you can ask one of your Pokémon friends for help!

A description of the Attraction will be displayed before you begin. Make sure you read it carefully!

Bulbasaur's Daring Dash is a sprint to be first to the finish!

First, try and achieve the Goal you've been set!

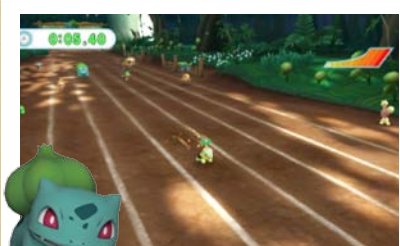

Remember, your friends can compete in your place!

7 All the Amazing Attractions!

Each Attraction has a Pokémon that is the Attraction Chief. You must first talk to the Attraction Chief if you want to play an Attraction. You'll also need to offer that Pokémon some Berries!

The PokéPark Entrance

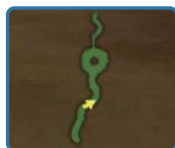

The PokéPark Entrance

Is this your first time in the PokéPark? If it is, I can answer all the questions you have! Well, maybe not all of them... There are some things even I don't know!

Making the Most of the Map

When you're running around, it's important to keep an eye on the map! Your location is marked with a yellow arrow, which points in the direction you're facing. If you think you're lost, check the map!

Practice Makes Perfect!

The first thing you should do is run to where I am. Also, be sure to practice tackling! You'll find that Berries are very important, so collect them. Oh, and you'll need to master Dashing and jumping, too!

Catch Me If You Can!

When the countdown finishes, "Go!" will appear. That's when you should begin to run after me as fast as you can! When you win Skill Games, the Pokémon you defeat will become your friend or give you some Berries! If you want to enjoy the Attractions or get some training, you'll have to pay for it with Berries. So, make sure to collect as many as you can!

Talk to Buneary

Pokémon that want to talk to you have three dots above their heads. You should go and speak to Buneary: she looks troubled!

Use Thunderbolt!

Oh, Snorlax is sleeping again! If you don't wake him up, you won't be able to get past! Use your special move to wake him!

YOUR POKÉMON FRIENDS SO FAR!

Chatot

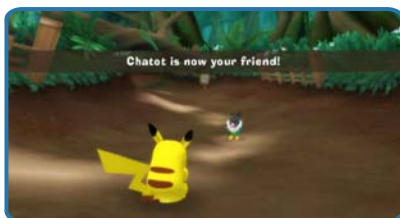

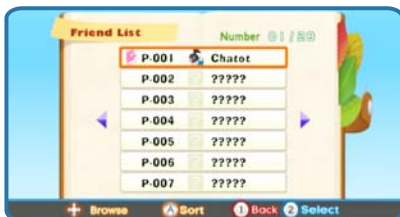

HOW MANY BERRIES?!

You may find more than 10 Berries in a crate. Some crates contain 50 or even 100 Berries!

Don't Forget the PokéPark Pad!

The PokéPark Pad lists your friends and records of your adventure. Make sure to check it regularly!

Chikorita's Story

THRILLING ADVENTURES FOR THREE!

I'M CHIKORITA! WHERE AM I?

I was playing with Pikachu, Piplup, and Charmander. We've known each other for a long time and have played together for ages! Today we ran into a problem, though. Pikachu fell right into a Mysterious Tunnel!

We all jumped in after him, of course, but now it seems we're all in different places! Where in the world am I? This place is lovely and green, but I'm so worried about my friends!

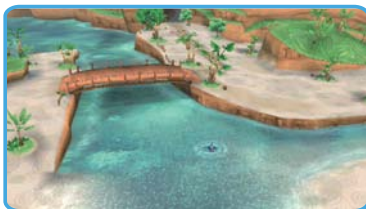

Piplup's Story

OH, DEAR! HELP!

This isn't good at all! We were all playing together when a pink Pokémon I've never seen before appeared.

I was so surprised that I lost my footing. That's how Pikachu fell right into a Mysterious Tunnel! Charmander and I jumped in after him. I think Chikorita followed us, too. What's that? I think I can hear the waves or something...

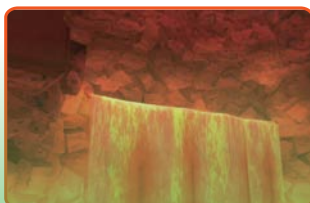

Charmander's Story

DID I ARRIVE IN TIME?

What's happening? I think I got hit by something from behind and fell... Maybe I pushed Pikachu? Before I knew it, Pikachu was tumbling head over heels into that Mysterious Tunnel! What? No! Of course I didn't do it on purpose! Why would I? I was the first to jump in after him, wasn't I? Oh no! What should I do? Where am I? This place looks dangerous!

Meadow Zone

Hey, Pikachu, you made it! Now that you're here in the Meadow Zone, I bet you just want to soak up the sun and enjoy the Attractions as much as possible. Am I right? I'm sorry to say, playing the Attractions and visiting other Zones isn't allowed at the moment! I wonder what we can do to fix that?

Chikorita Has Been Taken Away!

2
Meadow

Chikorita has been caught secretly playing Bulbasaur's Daring Dash! She has been taken to Venusaur! Pikachu, please help Chikorita!

Soon after you enter the Meadow Zone, you'll see Bulbasaur's Daring Dash. You can't play it yet, though!

Bulbasaur
Do you want to play my Attraction?
I'm afraid you can't.

HELP!

Point 1

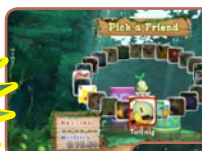

If you clear this Attraction, I'll give you a **Prism Piece!** You're collecting them, aren't you, Pikachu?

You Need Help from Your Friends!

3
Meadow

In order to get permission to cross the bridge, you need your friend Turtwig to beat Bulbasaur's Daring Dash for you. First, beat Turtwig in a Skill Game so that he becomes your friend. Then he can compete in the Attraction!

There are lots of Pokémon that you can ask to play Attractions. Once they become your friends, they'll appear for you to choose!

Time for Battle!

4
Meadow

Mankey is blocking your way! He'll let you pass if you beat him in a battle! Tackle him or hit him with Thunderbolt!

Lots of Berries!

5

Meadow

Venusaur is on the other side of this gate, and Croagunk won't let you pass until you've handed over 200 Berries! Can he even eat that many? If you don't have enough Berries, keep playing Bulbasaur's Daring Dash until you achieve the Bonus!

Venusaur Is Angry!

Apparently, if you don't beat both Croagunk and Spearow in Skill Games, Venusaur won't listen to what you have to say! Hurry up and visit Croagunk 5 and Spearow! 6

Challenge Venusaur's Vine Swing!

It seems that playing on the Attractions is forbidden so that no one gets hurt! That's a bit much, don't you think? Show how much fun it is to play the Attractions so that everyone knows it's not too dangerous! Do your best, Pikachu!

12

Meadow

The Meadow Zone Is Open Again!

Congratulations on clearing Venusaur's Vine Swing! Not only can you now play that Attraction as much as you like, but you can also visit the Meeting Place! You need to go there to meet Empoleon, don't you?

Visit Empoleon,
please!

Leafeon won't challenge you to a Skill Game unless you have a lot of friends. Challenge Magikarp 8 to a Skill Game! You'll need to hit him with Thunderbolt, but that's really difficult! Face Magikarp by pressing **B**, so that you can aim perfectly.

Point 2

Make a splash in battle!

In the Meadow Zone, you can knock your opponent into the water with Tackle! If you do that, you'll win, regardless of strength!

Time: About 5 seconds
Berries: 5 (free to play the first time!)
Goal: 10 seconds
Pokémon that can participate (in order of ability):
Mew, Jolteon, Arcanine, Leafeon, Scyther, Ponyta, Shinx, Eevee, Pachirisu, Buneary, Croagunk, Pikachu, Chimchar, Treecko, Bibarel, Turtwig, Bulbasaur, Bidoof, Oddish, Shroomish, Munchlax, Bonsly, Lotad, Weedle, Caterpie, Magikarp

Tip 1 Use Small Movements and Keep Shaking!

If you try too hard to shake the Wii Remote, you'll end up making great big movements. You'll run faster if you make small quick ones! Hold the Wii Remote tightly, and stay relaxed!

Tip 2 Start Running!

If you start shaking the Wii Remote at the exact moment "Go!" appears, you'll get a great start in the race! Do this, and gain an advantage over your opponents!

Tip 3 Turn on the Speed!

In the upper-right part of the screen is your speed meter. When it becomes red all the way to the right edge, you're going as fast as you can! Keep checking it, and don't slow down!

SHROOMISH'S RECOMMENDED POKÉMON

- 1 Leafeon
- 2 Scyther
- 3 Shinx

I like to watch from on top of the Start sign. It's so very exciting!

A challenger is waiting!

Attraction

VENUSAUR'S VINE SWING

I can teach you how to leap as far as possible with Venusaur's Vine Swing!

Time: 30 seconds

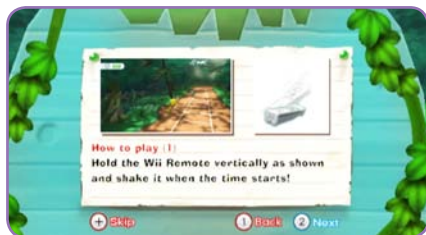

Berries: 5

Goal: 50 meters

Pokémon that can participate (in order of ability): Jirachi, Blaziken, Infernape, Lucario, Primeape, Tangrowth, Ambipom, Croagunk, Mankey, Aipom, Chimchar, Treecko, Pachirisu, Pikachu, Munchlax, Magikarp

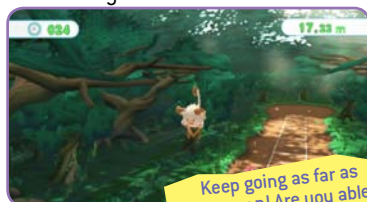

Tip 1 Match the Movements!

Match the Vine's swinging movements with your Wii Remote. As the Vine moves forward, move the Wii Remote forward. As the Vine moves backward, move the remote backward.

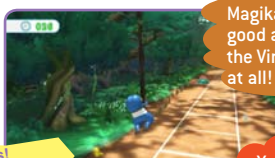

Tip 2 Swing as Far as You Can!

Once you've learned to time the movement of the Wii Remote with the Vine, you'll swing farther and farther! When the Vine becomes almost horizontal, you're swinging just about as hard as you can!

Tip 3 Good Timing Is Important!

Picking exactly the right moment to let go of the Vine will help you fly even farther! Work hard on your timing!

Time it like this!

What's that? You came to meet Empoleon?
Bad timing! He's shut himself up in the
Iceberg Zone and won't come out! Gyarados
is the Zone Keeper now. He's fighting with
Feraligatr, though! Oh dear!

The Bridge Is Broken!

The bridge is broken and Wynaut can't cross it! Maybe you should return to the Meadow Zone and talk to the Bidoof about helping you rebuild the bridge. **10** If you're not friends with any Bidoof yet, you could try gathering Lumber to help them out. They might like that!

You've Got Lots of Friends!

Gyarados will talk to you once you've made more than 25 friends and cleared his Aqua Dash. Gyarados is on another island, so you'll need to gather two bundles of Lumber and ask Bidoof to build you a bridge!

CRATES AND BOTTLES...

You'll keep finding more Zones, and you'll have more chances to participate in Attractions! Bottles and crates will accumulate around the area while you're busy on your adventures—they could appear anywhere!

Attraction

PELIPPER'S CIRCLE CIRCUIT

Flying through that wide-open sky is the best feeling ever! Getting a high score makes things even better!

Time: Approx. 40 seconds

Berries: 10

Goal: 8,500 points

Pokémon that can participate (in order of ability): Latias, Staraptor, Togekiss, Honchkrow, Gliscor, Pelipper, Staravia, Pidgeotto, Butterfree, Tropius, Murkrow, Taillow, Spearow, Starly, Wingull, Pikachu (using Pikachu's Balloons)

Tip 1 Aim for the 1,000-Point Circles!

The yellow Circles are worth 100 points, the red Circles are worth 300 points, and the rainbow-colored Circles are worth 1,000-Points! Focusing on the rainbow-colored Circles is an excellent strategy.

Tip 2 Don't Be Greedy!

Slow-moving Pokémon sometimes can't reach the Circles they want to grab. If you think you won't make it, don't push yourself! Just aim for another Circle!

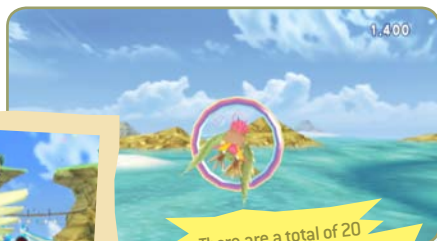

Sometimes I just want to play under the blue sky!

Butterfree can't reach the lower-left Circle from here!

Tip 3 Can You Remember Where the Circles Are?

If you can remember the Circle locations, then you can collect lots of them without having to make extra moves.

There are a total of 20 rainbow-colored Circles.

We'll welcome anyone who wants to fly through the sky!

Attraction

GYARADOS'S AQUA DASH

If you want to swim faster than anyone else, you should listen to my advice!

Time: Approx. 20 seconds

Berries: 10

Goal: 35 seconds

Pokémon that can participate (in order of ability): Manaphy, Empoleon, Floatzel, Feraligatr, Golduck, Vaporeon, Prinplup, Bibarel, Buizel, Corsola, Piplup, Lotad, Pikachu (using Pikachu's Surfboard), Psyduck, Azurill, Slowpoke

Tip 1 Full Speed Ahead!

Speed is the most important part of this race. From start to finish, hold down button (2) and swim as fast as you can!

If you're hit by Carvanha or his friends, you'll stop!

Try and remember the whole course!

Tip 2 Aim Between the Flags!

Pass between the Flags for a short burst of speed.

Tip 3 Memorize the Course!

When you're heading around a curve or between Flags, always pass as close to the bank as possible—a lap will be a little shorter! Remember the course well and you can always take the shortest route!

You only just made it! That's fine, though!

Sometimes you might not make it around the sharp curve and you'll hit the wall!

If that happens, just keep going! Don't worry about the Flags you missed.

BEACH ZONE

Iceberg Zone

Clear Empoleon's Snow Slide, and Empoleon will be friendlier. Oh, that's no good! If you try to slide around on the snow like that, you'll just get frostbite on your belly! You'll have to ask a friend to compete for you.

You'll also be able to go to the Cavern Zone.

You've reminded me just how much fun these Attractions can be! Please, give my regards to Venusaur and Blaziken.

SNOWPLUP!

Once you've cleared Empoleon's Snow Slide, a huge Piplup-shaped snowman appears in the Iceberg Zone! Wonderful!

Attraction

EMPOLEON'S SNOW SLIDE

I've been studying tips on the best ways to slide on ice! I'll teach you a few!

Time: Approx. 40 seconds

Berries: 10

Goal: 55 seconds

Pokémon that can participate (in order of ability): Suicune, Empoleon, Glaceon, Blastoise, Glalie, Lapras, Delibird, Piloswine, Prinplup, Squirtle, Piplup, Quagsire, Spheal, Pikachu (using Pikachu's Snowboard), Teddiursa, Magikarp

Tip 1 Pick an Easy Course!

When there are two or three different paths, you can use the Flags as landmarks. That makes things easier. When you reach the first place where the path branches in three directions, I recommend taking the middle route!

Tip 2 Use Flags to Help Speed Up!

When you pass between the Flag, you'll speed up for a short time! Just in front of the finish line are two sets of these Flags. Make sure to pass between them for that last burst of speed!

ICEBERG ZONE

The last two go from left to right.

Tip 3 Learn the Course!

If you memorize the location of the Flags and curves, you'll be able to pass through them that much easier. Just keep trying!

Just past this point is a really fast curve, so watch out!

If you slide really well, Empoleon may compliment you!

You shouldn't forget the things that make you the way you are!

Cavern Zone

You made it! Welcome! There are lots of fun things to play with in the Cavern Zone. Things like, um, rocks! And, er, a Mine Cart! Hot springs, too! Mind you, the Mine Cart seems to be broken, and the hot springs have dried up... Oh, dear!

This Is Raily Bad!

4
Cavern

Mr. Mime is in trouble!

The Rail has disappeared, and now the Mine Cart can't go to the Lava Zone! Who knows where the Rail is? Perhaps you should ask Zubat!

If you want to ride to the Lava Zone, you'll have to fix the Mine Cart.

That Mine Cart was loud! I'd rather live in silence!

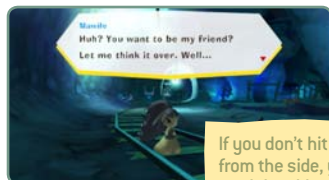

A gourmet like myself wouldn't eat a Rail! I'd like some Iron Ore much more! Hee hee, that rhymes! And, speaking of Iron Ore... I'm hungry.

Who Did It?

7
Cavern

Mawile cut the Rail...
Dugtrio hid the Rail...
Marowak is protecting the Berries...
Diglett moved the Rail...
The Rail is now under **Snorlax**!

If you don't hit Mawile from the side, you won't be able to win. And if you don't beat Marowak in battle, he won't tell you anything!

Normal Berries are no good. If you don't give Snorlax a Big Berry, he won't move!

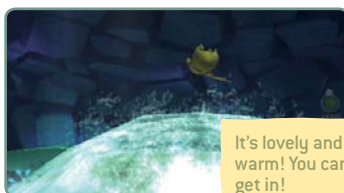

The Rail and the Hot Springs Reappear!

10
Cavern

Snorlax moves, and the Rail appears! Will this be enough to get the Mine Cart moving?

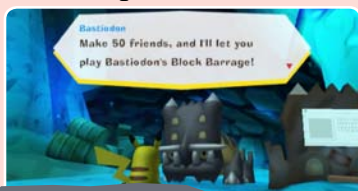

Snorlax moved out of the way to reveal the Rail, and now the hot spring has been refilled! The Cavern Zone's most famous features have been restored! Lots of Pokémon have arrived, too. It's so busy!

If you have more than 50 friends, you can play Bastiodon's Block Barrage.

Point

Make lots of friends, then come find me.

Ride the Mine Cart to the Lava Zone!

12
Cavern

Bring the Rail back to Mr. Mime at **1** so that he can fix it. If you beat Gible in a battle, the Mine Cart will move! Now, you can come and go as you please.

It would be great if we could play. I know—I'll loan you the Mine Cart!

There's never a dull moment when you're riding the Mine Cart!

You should definitely come and play again!

ALL ABOUT PIKACHU 1

If you stand still next to another Pokémon for a while, Pikachu will move around in different ways. Try this next to Torterra, Sudowoodo, and Azurill.

Time: Approx. 10 seconds

Berries: 20

Goal: 4,000 points

Pokémon that can participate (in order of ability): Metagross, Electivire, Magmortar, Hitmonlee, Ursaring, Mr. Mime, Raichu, Sudowoodo, Charmander, Gible, Chimchar, Magby, Pikachu, Sableye, Meowth, Torchic

Tip 1 Which Way Will It Go?

Did you notice that when the ball hits a wall or a Pokémon, it will bounce off at the same angle it hit? Keep this in mind, and you can predict the ball's movement. Then you can move faster!

Tip 2 Control the Direction!

Hit the ball on your right to send it to the right, and hit it on your left to send it to the left. Give it a try when you want to control the direction of the ball.

Wait until the last moment to hit it, and you'll get this angle!

LOOK OUT FOR DUGTRIO!

When Dugtrio appears in front of you, proceed with caution! If you hit the ball near him, he'll send it back at you faster than you think! That might not help your chances of winning! On the other hand, Power Shots will simply brush him aside.

You won't get by me easily!

But, don't send Power Shots my way!

Tip 3 Perform a Power Shot!

Breaking a block with a Power Shot will earn double points. If you're aiming for a high score, you should try as many Power Shots as you possibly can! When the ball is just in front of you, press ② to unleash a Power Shot. Each Pokémon is slightly different, so try as many of them as you are able!

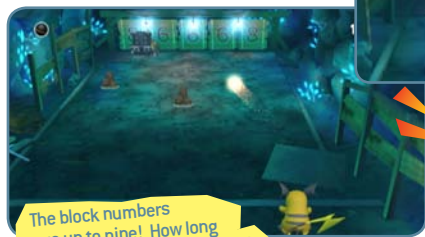

Normally, if you break the 6 block, you'll get 600 points, but if you break it with a Power Shot, you'll get 1,200 points!

Press ② when the ball is just about here. You should perform a Power Shot!

Hit it just right, and you'll break two blocks at once!

The block numbers go up to nine! How long can you keep this up?

There's no way I'll lose!

Marvel at the magnificence of my punch!

My miming is marvelously masterful!

My discipline and training make my attacks technically perfect!

Do you think you can get past my iron defense?

Lava Zone

Thanks to you, the Mine Cart is fixed! I'm finally able to return! Let me guide you around the Lava Zone as a thank you.

You'll Have to Stop Those Fire Pillars!

4
Lava

There are fire pillars in two locations.

The Switch is broken, so it seems you can't turn off the fire pillars! If you're going to meet Blaziken, you'll have to find some way to deactivate and get past those pillars!

Can the Drill Be Fixed?

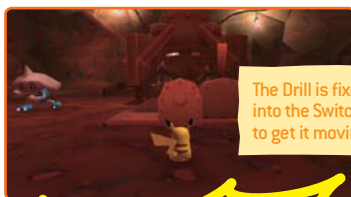

2
Lava

5
Lava

Right now the Drill doesn't seem to be working right, so you can't use it. Why not go visit Camerupt at the Furnace? I bet that the Drill will be fixed by the time you get back!

You've been challenged to a battle! Camerupt will shoot fireballs. Dodge them, and try to get behind her!

The Drill is fixed! Dash into the Switch at 3 to get it moving.

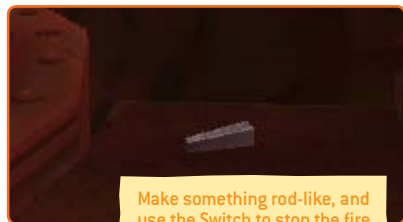

LOOK! IRON ORE!

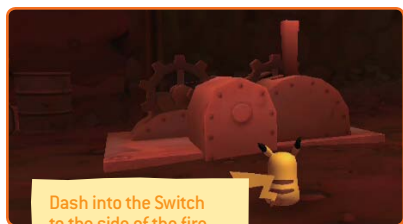

Forge with the Furnace!

5
Lava

Put the Iron Ore in the Furnace. I bet something good will happen!

Make something rod-like, and use the Switch to stop the fire pillars!

Dash into the Switch to the side of the fire pillars to turn them off. Now you can pass by!

LAVA ZONE

Don't Forget Rhyperior's Bumper Burn!

7
Lava

An Iron Top is required to play Rhyperior's Bumper Burn. Use the Drill to dig up the Iron Ore. Take it to the furnace to create something round... You'll have made an Iron Top!

Bring an Iron Top, and you can play!

Blaziken won't meet you until you've become skilled enough to clear Bastiodon's Block Barrage (Cavern Zone **6**) and Rhyperior's Bumper Burn. I can play Bastiodon's Block Barrage, so let's try it together!

Point 1

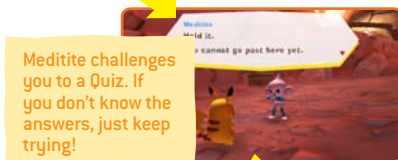

Three Superb Skill Games!

Three Pokémon stand in your way before you can meet Blaziken. All of them are ready to challenge you in Skill Games!

Battle Charmander! You've been looking for him!

Meditite challenges you to a Quiz. If you don't know the answers, just keep trying!

Farfetch'd challenges you to a battle. Defeat him to pass!

Dash into the Switch to raise the bridge. Now you can continue!

Persuade Blaziken!

8
Lava

Now you're finally able to meet Blaziken. Demonstrate your strength by beating Charmander!

If you can beat Bastiodon's Boulder Bash, Blaziken will make friends with Venusaur and Empoleon again. If you're finding it difficult, just ask a friend to help!

Venusaur, Empoleon, and I are best friends again! It's all thanks to you!

Only six Prism Pieces left to find!

You know, I heard that the Haunted Zone is full of ghosts!

Point 2

GOING FOR GOLD!

Use the Drill, and sometimes a Gold Nugget will appear. You can use it to make a Gold Top. That would probably make Hitmontop happy!

Attraction

RHYPERIOR'S BUMPER BURN

My favorite Attraction is Rhyperior's Bumper Burn. The Power Attack is great, isn't it?

Time: 45 seconds

Berries: 20

Goal: 5,000 points

Pokémon that can participate (in order of ability): Heatran, Rhyperior, Tyranitar, Hitmontop, Flareon, Venusaur, Snorlax, Torterra, Magnezone, Claydol, Quilava, Torkoal, Baltoy, Bonsly, Pikachu, Magnemite

Tip 1 Master the Power Up!

The Power Up that enables you to perform a Power Attack doesn't just give you points. It also helps boost the attacks themselves! There are several different types of attacks, depending on the Pokémon. For instance, Heatran's Exploding attack and Torterra's Earthquake attack center on that Pokémon and radiate to a certain distance. Try to use these attacks as close to the center of the arena as possible!

If you attack away from the center, you won't get the full benefit of the move!

LOOK-A POWER UP!

When a mark appears at the lower right, you can perform a Power Attack!

Power Ups appear at specific intervals. A Power Up will first appear when there are 30 seconds left. Others will appear at 20 seconds, 10 seconds, and 5 seconds. If you remember this routine, it will be easier to battle. You can hold only one Power Up at a time, so be sure to use them quickly!

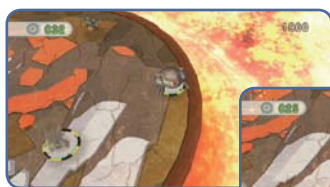

Power Ups appear in different locations. They may even appear in two places at once!

Tip 2 Dodge and Drop!

It's dangerous to try to Tackle huge opponents. Your foes will chase you—wait near the edge of the arena so that you'll have time to dodge. Then knock them off the edge! It's a little difficult, so might take a bit of practice.

If you fall off, you won't be able to get a high score!

Knock out a huge opponent, and your points will be massive!

Formidable Enemy Exposed!

Play Rhyperior's Bumper Burn all the way to the end, and Heatran will appear as an opponent! He'll charge into you with amazing power, so be careful! Rather than playing with Pikachu, have one of your friends play this Attraction after you've opened every Present box.

Heatran's exploding attack is amazing!

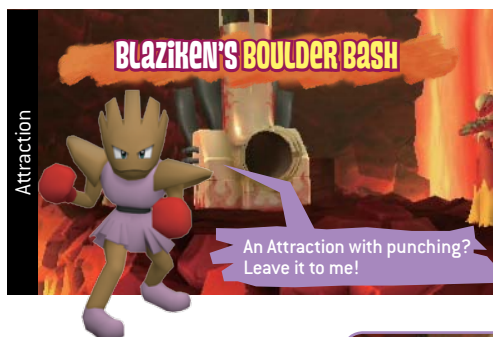

Snorlax even sleeps on the playing field!

You've got some nerve trying my Attraction but then falling asleep!

ZZZ! Snore!

Time: 30 seconds

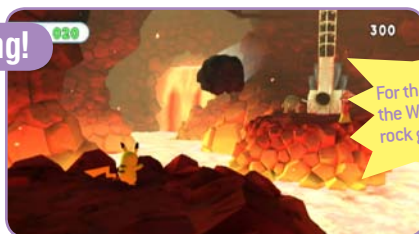

Berries: 20

Goal: 5,000 points

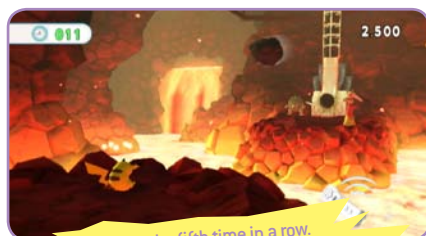

Pokémon that can participate (in order of ability): Groudon, Blaziken, Garchomp, Scizor, Magmortar, Hitmonchan, Machop, Marowak, Farfetch'd, Cranidos, Camerupt, Bastiodon, Mawile, Pikachu, Geodude, Phanpy

Tip 1 Just Keep Hitting!

If you can smash a number of rocks in a row, you'll earn more and more points! Remember the timing for throwing a punch...and concentrate!

For the best timing, use the Wii Remote when the rock gets to this spot.

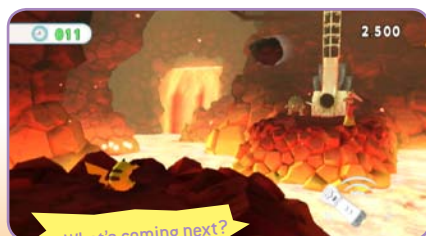

This is the fifth time in a row.
300 x 5 equals 1,500 points for you!

Tip 3 Don't Worry if You Miss!

The more rocks you hit in a row, the faster and lower they'll start coming toward you! If you miss, they'll return to normal speed and angle. Keep an eye on their movement, and don't get flustered!

Tip 2 Match Timing!

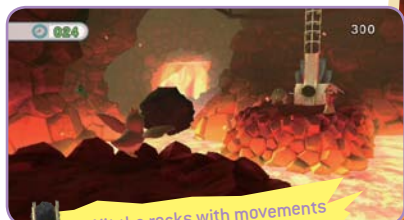

As well as hitting rocks one after the other, if you can hit them perfectly, you'll score more points. If you strike a rock with perfect timing, you'll score 300 instead of 100 points! They won't all come toward you at the same height or speed, so keep concentrating!

What's coming next?
Keep going!

Tip 4 Marowak or Farfetch'd May Do Better than You!

Marowak and Farfetch'd are very easy to move with the Wii Remote, so good timing becomes easier with them. If you just can't get the timing down with any other Pokémon, why not try asking them for help?

Hit the rocks with movements just like your own arms!

Huh? Where did Blaziken go?

Once Blaziken becomes your friend, he can compete in Boulder Bash for you. When he does, he'll no longer appear next to Golem. Golem will throw the rocks on his own. After all, Blaziken can't be in two places at once!

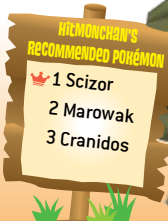

38,200

Golem looks kind of sad, don't you think?

Of course, Blaziken would get the high score!

Lately there are more and more challengers, and there are always amazing battles happening!

When there aren't any guests, I like to walk around the Lava Zone, looking for pretty things.

PokéPark Question Board

CHECK HERE IF YOU HAVE ANY QUESTIONS ABOUT YOUR ADVENTURE!

Question 1

FROM: ANONYMOUS (MEADOW ZONE)

Hello. I have a question about battles. I'm always playing in the Meadow Zone, and I just can't seem to beat Torterra or Scyther. How can I beat them? Please tell me!

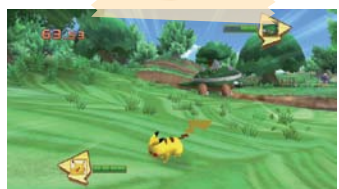

A

REPLY: Primeape (Meeting Place)
Teaches Iron Tail in the Meeting Place. The PokéPark's battle expert.

SEE THROUGH YOUR OPPONENT'S ATTACKS!

Leave all your questions about battles to me! I'm Primeape. Strong opponents are strong to the end, so Pokémon like you will get nervous! The most important thing for you to do is calm down. Once the battle has begun, run around your opponent, and memorize its style of attack.

▲ When you can't dodge, run faster!

THE MOMENT THE ATTACK ENDS IS YOUR CHANCE!

Take Torterra, for example. He attacks three times in a row. Keep watching! He takes a short break, doesn't he? That's your chance! You can Tackle or use Iron Tail, which you can learn from me. At any rate, time it well and attack quickly.

◀ Get behind him and Tackle!

GET OUT OF THE WAY AFTER YOU TAKE DAMAGE!

If you wait too long, your opponent will counterattack with Earthquake or another attack. So, once you've hit him, get away fast! Then, once your opponent has stopped attacking, you can Tackle him again. If you keep up this pattern, you are sure to win. Refuse to give up—that's the key!

When in doubt, hit and run! ▼

Question 2

FROM: ANONYMOUS (BEACH ZONE)

Hello. I'd like a lot of friends. How do I make friends?

REPLY: Octillery (Iceberg Zone)
I've got a lot of friends in the Iceberg Zone!

TALK TO EVERYONE!

The key to making friends with Pokémon is talking to them. Some Pokémon will want to challenge you in a Skill Game, and others will ask you for favors. As you make more friends, your reputation will spread, and more Pokémon will approach you! When they approach, talk to them, too. When you see Pokémon that you want to befriend, check Chatot's PokéPark Pad [P. 106–P. 127].

I spend all my time in the Tree House, but when I see these pictures, I want to go out on a journey around the PokéPark! Thank you to all the Pokémon who entered their wonderful photos!

Chikorita's Story

THE TREE HOUSE WILL BE READY SOON!

We were scattered all over the place, but we've finally found each other again! It seems that Charmander has enjoyed everything that the PokéPark has to offer. I bet he especially enjoyed the Lava Zone!

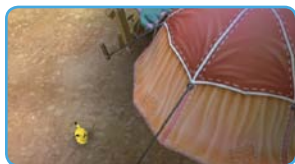

My Tree House is almost finished, thanks to everyone in the Meadow Zone. They gathered all the materials for me. Bidoof and his friends taught me a lot about building techniques!

Piplup's Story

WE FOUR ARE ALWAYS TOGETHER!

I dropped into the Beach Zone, and Charmander arrived in the Lava Zone. It's good that we finally got everyone together! Now I can relax and begin repairing the Balloon.

I think I'll have to go to the Haunted Zone to look for cloth to fix the holes in the Balloon. When Misdreavus, the Pokémon with the Photo Studio, needed cloth to repair her tent, she found it in the Haunted Zone!

Charmander's Story

I'VE ARRIVED AT THE MEETING PLACE!

I'm so relieved that I've found everyone! Pikachu must be a real hero if Blaziken is entrusting the PokéPark to him! I'll try to be that reliable, too. Yes, that's right, it's thanks to Blaziken that I was reunited with everyone! It seemed as if I was going to fall into the lava, and Blaziken helped me by catching me. It was an amazing jump! Blaziken is so cool!

When you talk about Gengar's picture, Haunter suddenly appears... And before you know it, the number of Gastly increases! This must be Gengar's curse, mustn't it?

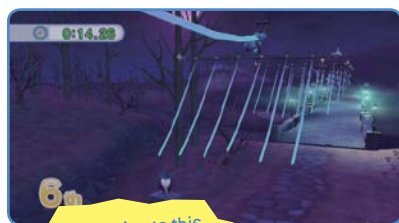

ARE YOU CONFUSED?

When you become Confused in battle, the Wii Remote's forward, backward, left, and right controls become switched around! Claydol and Gengar use attacks that cause Confusion, so watch out!

Time: Approx. 19 seconds
Berries: 30
Goal: 40 seconds
Pokémon that can participate (in order of ability): Celebi, Lucario, Infernape, Blaziken, Riolu, Sneasel, Raichu, Ambipom, Primeape, Aipom, Electabuzz, Chimchar, Croagunk, Pikachu, Meowth, Pichu

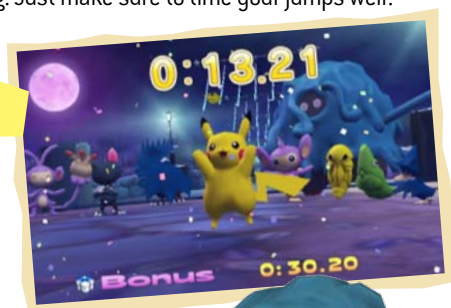

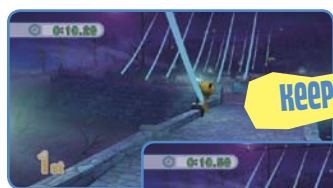

Tip 1 Pick Your Path

There are a total of eight ropes. Swing wide and jump far, and you'll fly to the next rope! It doesn't matter how much you shake the Wii Remote. This is a bit tricky, so take your time, jump at the right moment, and try to keep it simple!

Tip 2 Try This Advanced Technique!

When you start, shake the Wii Remote hard. You'll fly over one set of ropes. After that, don't shake the Wii Remote, and you'll swing from rope to rope in succession. This is a really quick way of completing Tangrowth's Swing-Along. Just make sure to time your jumps well!

You can pick an opponent! You don't even have to have cleared the Attraction!

When you play the Attraction any time after you've cleared it, your opponents will vary! Sometimes they'll be really powerful!

Time: Approx. 8 seconds

Berries: 30

Goal: 14 seconds

Pokémon that can participate (in order of ability): Darkrai, Gengar, Mismagius, Scizor, Espeon, Dusknoir, Umbreon, Cranidos, Skuntank, Voltorb, Gastly, Duskull, Misdreavus, Krabby, Pikachu, Stunky

Tip 1 Dashing Details!

The controls for Dusknoir's Speed Slam are the same as for Bulbasaur's Daring Dash, and the more you shake the Wii Remote, the faster you run! If you get a great start, you can set a super time!

A good start is the first step toward victory.

Tip 2 The Crashes Will Slow You Down!

If you crash into a wall or hit Spinarak, your speed will drop. Shake the Wii Remote to speed up again.

Keep going until the gauge is colored red all the way!

Tip 3 Glide Through with Ghost Types

Ghost-type Pokémon like Gengar and Mismagius can slip through walls and bypass Spinarak easily. Their speed doesn't even drop!

Slip by everything

Keeping Up Appearances!

We appear in all kinds of places and always in specific patterns. As time passes, we just keep popping up faster and faster! So, you could memorize the pattern and make sure you learn to aim faster and faster... But you wouldn't want to do that, would you?

Don't just watch out in front...they'll come from all directions!

IF THEY'RE MOVING SLOWLY, THEN YOU CAN CIRCLE THEM LIKE THIS!

When you're moving slowly, you can speed up and attack! The "!" mark is a signal that you're about to be hit. So, you should ignore it... Yes, ignore it.

Don't
2

Aim for Rotom!

Sometimes Rotom will appear in different forms. If you hit him, you'll get 1,000 points! Mind you, if you're focused only on Rotom, then you can get caught by the rest of us...

Your attacks will hit right in the middle of the spot your target finder is pointing at. We'll do our best to stay out of the way...

Don't
3

Aim for the Group!

Don't you dare shoot into the areas where we're gathered! If you hit a strong Pokémon, then everyone else will get hit, too!

Aim! Don't just shoot!

When Porygon-Z did all these things that you're not supposed to, he got this high score!

Really? I'm going to try that out, too!

When I play, I always do the things you're not meant to...

You can turn in all directions, but sometimes it's not that easy.

Magmortar's the only one who can attack with fire!

That's pretty scary!

If you are aiming outside the screen, you won't be able to turn around. Don't panic! Just move the pointer inside the edge of the screen and you'll be able to spin!

Everyone's aiming for the highest score! Hee hee, I made a joke!

HAUNTED ZONE

Chikorita's Story

EVERYONE WENT TO THE HAUNTED ZONE TOGETHER!

Now that the Tree House is finished, I've decided to help out Piplup and Charmander. We've decided to go to the Haunted Zone together.

While Piplup is off looking for cloth, I got thread from Spinarak. Spinarak is really good at making thread, but the thread I got became so sticky that it was really difficult to handle! Spinarak will bring more later, but maybe I'll ask someone else...

THRILLING ADVENTURES FOR THREE!

Piplup's Story

SOON THE BALLOON WILL FLY!

We all went to the Haunted Zone to get cloth and thread. Soon we should be able to fix the Balloon!

That's right, Gliscor in the garden in the Haunted Zone is really good at catching the wind and flying! I wish I could be like that. I don't just want to fix the Balloon; I want to ride the wind! That's why I'm studying, you see. I think I'll ask Drifblim for tips later.

Charmander's Story

LET'S MAKE FIREWORKS!

Chikorita and Piplup both have something to do, but I don't, so I'm a little bored. Mind you, I've been thinking I might just make some fireworks!

The full moon in the Haunted Zone is so beautiful! I wonder if Pikachu has seen it and thinks it's as wonderful as I do? It's amazing to think that we could all be looking at the same thing at the same time and just not know it!

Granite

There are a number of Switches in the Granite Zone. Hit them to get them to move. If you can't continue, then try hitting one to see if that helps. Now I'll let you in on a secret! After you cross the bridge, be sure to hit the Switch a second time. Don't forget!

Move this Switch, then keep going!

Battle Blastoise!

It's really difficult to have a battle in a tight space, but do your best. Blastoise will shoot twice in a row. You can dodge by jumping. When the first shot is about to hit you, jump. When you've dodged the second shot, hit Blastoise with Thunderbolt!

Jump to dodge attacks!

Keep On Jumping!

As you probably just heard from Skorupi, you'll have to dodge falling rocks! This makes a good sense of distance very important! Calm down and jump! Press and

ALL ABOUT PIKACHU 2

Pikachu has lots of different moves. Try some near Drifblim, Feraligatr, Buneary, Baltoy, Porygon-Z, Mr. Mime, and Hitmontop, too.

Attraction

ABSOL'S HURDLE BOUNCE

Tips for Absol's Hurdle Bounce?
Let's see...Run fast and jump
high! Does that sound right?

Time: Approx. 10 seconds
Berries: 40
Goal: 16 seconds
Pokémon that can participate (in
order of ability): Shaymin, Absol,
Lucario, Ponyta, Ninetales, Lopunny,
Espeon, Infernape, Breloom, Riolu,
Furret, Mareep, Eevee, Vulpix, Pikachu,
Chikorita

Tip 1 Remember Where to Run!

The most basic part of Absol's Hurdle Bounce is simple. Shake the Wii Remote hard at the beginning to start fast. Keep jumping those hurdles, and you won't have to shake the Wii Remote to speed up. If you hit something, you'll slow down, and then you'll have to shake the Wii Remote a lot to speed back up!

Check the upper-right gauge, and
shake the Wii Remote when your
speed drops!

Tip 2 There are Many Ways to Jump!

Each Pokémon has a different style of jumping. Some jump low but far, and some jump high but only a short distance. Try and remember each Pokémon's style!

Keep experimenting
to see how close you
need to be to the
hurdles before you
have to jump!

Running speed is
also different!

Tip 3 Use Dugtrio for a Super Jump!

If you jump on Dugtrio, you'll be able to jump high! Watch out, though—the higher you jump, the more likely it is you'll jump so high that you'll crash into the next hurdle! If you think getting it right will be too difficult, just don't attempt the jump!

No matter how many times I play, I always remember Dugtrio's location!

As you near the finish line, shake the Wii Remote quickly to ensure a final burst of speed!

GRANITE ZONE

Attraction

Salamence's Air Ace

Once I've finished training you, you're certain to get the high score!

Time: Approx 1 minute
Berries: 40
Goal: 12,000 points
Pokémon that can participate (in order of ability): Latios, Salamence, Charizard, Dragonite, Flygon, Aerodactyl, Staraptor, Honchkrow, Gliscor, Pidgeotto, Togekiss, Golbat, Taillow, Murkrow, Zubat, Pikachu (using Pikachu's Balloons)

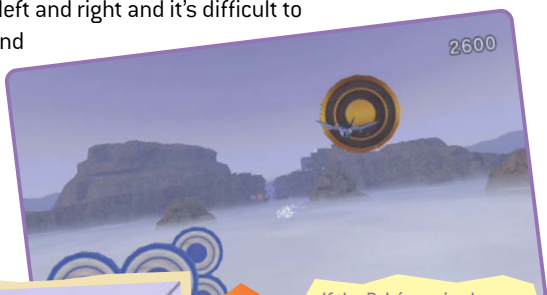

Tip 1 Make Magnificent Moves!

You can hit the targets by using a move or simply by touching them. Keep using your moves without stopping, and touch anything that they miss!

Tip 2 Don't Stop Using Those Moves!

The blue targets are worth 100 points, the red targets are worth 300 points, and the gold targets are worth 1,000 points. Concentrate on the gold and red targets! When the targets are split between left and right and it's difficult to hit both, pick one to aim for, and you'll be sure to hit them. Something important to remember is that no two Pokémon move at the same speed in any direction!

If the Pokémon is slow moving, don't try too hard to collect everything!

First, you should talk to Shaymin. I heard that she has been to the Sky Pavilion! You can find Shaymin in the center of the meadow.

Shaymin
Certainly not. This is the wonderful, beautiful, amazing **Flower Zone**!

Oh, Shaymin can't take you to the Sky Pavilion without the Mirror? Hmm. It was on the Dais in the center of this Zone. Maybe Mareep knows something? She's always near the Dais...

A plaza with the huge tree? Oh, you mean the Meeting Place! Get Drifblim to take you—that's the quickest way there. Get the Mirror that you'll find there, and come back here. Then you'll need to visit the Dais...

During the earthquake we had a while ago, the Mirror fell somewhere! It's lost!

I heard that something shiny might have fallen to the ground in the Meeting Place!

Point

ALL ABOUT PIKACHU 3

Depending on the Zone, Pikachu will move around in different ways, but only if you make sure you stand still for a while! He'll shiver in the Iceberg Zone and cower in the Haunted Zone!

Attraction

RAYQUAZA'S BALLOON PANIC

Okay then, this is the last Attraction! It's split into two parts, and it's pretty tricky!

Time: Approx. 1 minute
Berries: 40
Goal: 30,000 points
Pokémon that can participate (in order of ability): Deoxys, Lucario, Glaceon, Luxray, Mamoswine, Infernape, Floatzel, Rhyperior, Absol, Breloom, Mareep, Cyndaquil, Totodile, Chikorita, Mime Jr., Pikachu

Tip 1 Catch the Rainbow-Colored Rings!

You'll start at Rayquaza's tail. The yellow rings are worth 100 points, the red ones are worth 300 points, and the rainbow ones are worth 1,000 points. Do everything you can to catch the rainbow rings!

It's better to take the rainbow rings even if you miss some yellow rings!

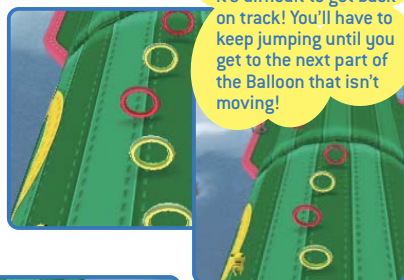

Tip 2 It's All in the Jump!

Rings that are high up can be reached by jumping. When you're not sure how high up they really are, take a look at the shadows on the ground and compare them with the distance to the rings. That should give you a pretty good idea! Jumping is the easiest way to reach the moving rings.

Small Pokémon have to jump to hit the rings—they'll run right underneath!

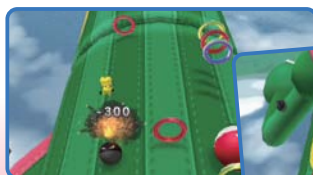

In places where the Rayquaza Balloon is slowly spinning, it may seem that you're going to fall!! If you're starting to get close to the edge, keep jumping forward to get out of trouble!

If you get this far over, it's difficult to get back on track! You'll have to keep jumping until you get to the next part of the Balloon that isn't moving!

If you run into Voltorb or Electrode, you'll lose 300 points! You can try and dodge them by jumping out of their way. Unfortunately, Mamoswine and Rhyperior won't be able to dodge

Electrode at all! Keep an eye on Electrode's shape, and move quickly—that's your best hope for success!

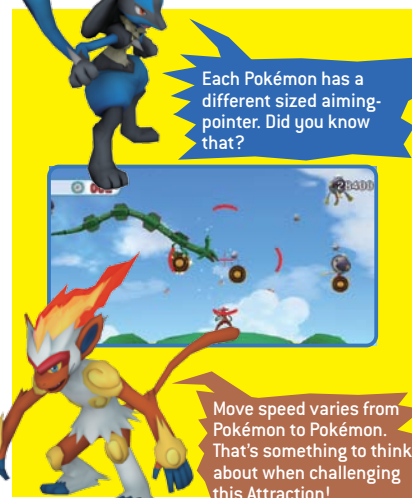

Rhyperior must be too heavy—he can't jump out of the way! I really hope that the Balloon doesn't tear!

Tip 3 Keep Your Eye on the Prize!

Once you get to Rayquaza's head, aim with the Wii Remote, and shoot at the targets. Blue targets are worth 100 points, red targets are worth 300 points, and gold targets are worth 1,000 points. Try focusing on the gold targets, and do your best to hit every one of them! Be careful, though; if you hit a target marked with an X, you'll lose 300 points. If you hit a target right in the center, you'll receive double points!

Tip 4 Learn the Patterns!

As time goes on, targets will move faster and faster. The pattern they appear in will not change, but it becomes more difficult to hit the gold targets. Aim for the spot where the targets are clustered. If you do this, you should be able to hit several targets at a time!

Each Pokémon has a different sized aiming-pointer. Did you know that?

Move speed varies from Pokémon to Pokémon. That's something to think about when challenging this Attraction!

When I try to lift heavy Pokémon, I worry that I'll drop them!

Just look how big they are! It's only natural to be worried!

!!!!????

Try no to worry! You're meant to be having fun!

This is the last gold target. Try your best to hit it!

The farther you go, the faster the targets move!

Once we've gathered all the Prism Pieces, we need to take them to Mew. I didn't think there was any way that my balloon could possibly take us all the way to the Sky Garden, but it did! I had no idea that my dreams would come true! It's so wonderful to feel helpful!

About the Sky Pavilion!

This is the Sky Pavilion. It has a strange feel to it, doesn't it? As soon as we arrived, the ground shook!

Now it's time to battle! You'll have to battle three Pokémon in a row! Isn't it amazing that Mew can transform into such strong Pokémon? Pikachu, I know you'll win. If you're worried that you won't, try going back to the Meeting Place for a little more training.

You've battled three times in a row before, remember? It was in the Lava Zone.

Point 1

When Magmortar is about to shoot fire, move to the side as quickly as you can, and use Thunderbolt!

Point 2

Put some distance between yourself and Garchomp! Try and Tackle him, but if he charges at you—Dash away!

Point 3

Your final battle is with Tyranitar. Take careful note when he moves like this. When you see that happen, dodge!

If you can't dodge his attack, Dash behind him and use Tackle!

We hear you're strong despite your size. We won't go easy on you!

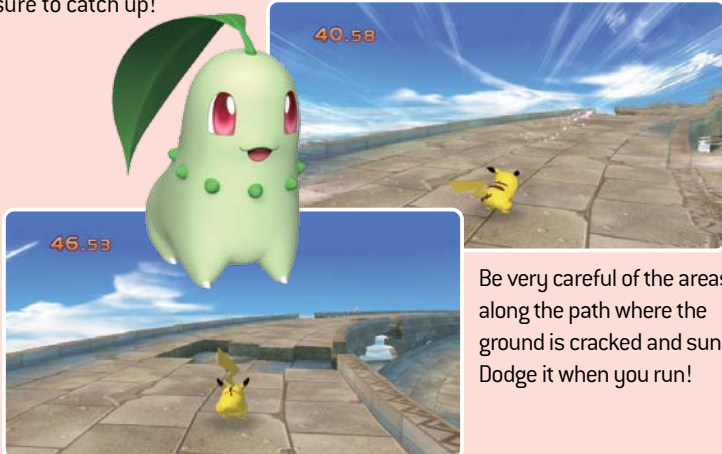

One Last Game...

Mew is great at playing Chase! Where he plays, some of the ground is difficult to run on. You should be careful!

Point 4

Pikachu, if you've trained with Ponyta in the Meeting Place, you'll be fine. Use Double Dash during the Chase, and you're sure to catch up!

Be very careful of the areas along the path where the ground is cracked and sunken. Dodge it when you run!

What is a Sky Prism? You know, I really don't know myself! What I do know is that when we Pokémon start to put less effort into our friendships with each other, the Sky Prism begins to fall apart! The reason I asked you for help is because you all get along so well. You look like you'll be friends forever!
